 - Dr. Logan wants our input on databases with information on prescribed medications
 - Depends on the user friendliness of the interface
 - Is there an opt-out option? Read the ppt sent by Tim.
 - Should the state subsidize “low-tech” practices to allow them to acquire necessary technology to implement the new laws and regulations
 - Students believe that we need to further implement laws to protect from over prescribing opioids, and this is a good first step for providing accountability to prescribers
